Per our discussion on R&P coordination on [redacted] which announces trial period credit for direct transfers from other government service, I've checked our records on the coordination on this program. They showed that I, as Chief, SPD, reviewed the memorandum to the DDCI in January 1981, which essentially outlined the program. Since it was not my style to bypass my superiors on any action of a precedent-setting nature, I would have run the memorandum by [redacted]. With regard to the HN itself, [redacted] made several attempts to convene a meeting with [redacted].

Because we had to get the notice out to prove our intention to OPM that we would make it almost as easy for other government employees to join CIA as we were asking it to be for ours to move to the competitive service, Jack finally got together with [redacted] and [redacted] about mid-April 1981. We assume that that action would have been passed upward in your area.
